# Snowfall

for beginning string orchestra  
Grade 1

AJ Harbison

### **Program Notes**

One of the things I love about Kansas City, especially having moved here from Southern California, is getting to experience snow in the winter. *Snowfall* depicts the quiet calm of a winter evening, with shifting timbres representing shifting shadows of moonlight shining through swaying trees, and pizzicato in the center section representing the falling snow.

### **Performance Notes**

The bowings provided may be used, altered, or ignored at the discretion of the conductor, based on the abilities of the players.

A dashed line between *ord.*, *sul ponticello* and *sul tasto* markings indicates a gradual transition between techniques.

### **Duration**

ca. 3 minutes
